Low-Emission Green Aluminum Cans for “The Premium Malt’s (Sustainable Aluminum)” Limited-Edition Beer

Sumitomo Corporation, Sumisho Metalex Corporation, Kobe Steel, Ltd., Daiwa Can Company and Suntory Holdings Limited have launched a cross-industrial project to jointly design and produce cans made from green aluminum under the mass balance approach.

Compared with ordinary aluminum cans, the manufacture of the green aluminum-based cans cuts CO2 emissions by 25%. The cans have been adopted for the limited-edition “The Premium Malt’s”-branded beer to be sold as “The Premium Malt’s (Sustainable Aluminum)” by the Suntory Group. The product released across Japan on Tuesday, January 30, 2024.

Support Relief Efforts for Noto Peninsula Earthquake in 2024

Sumisho Metalex Corporation has committed monetary donation in the amount of 1million JPY through the Japanese Red Cross Society as humanitarian aid to those affected by the earthquake hit in Hokuriku area of Japan.

We would like to express our deepest sympathy to those affected by this disaster. We sincerely wish for the earliest recovery from these unfortunate events.

Calendar and Diary Donations

Sumisho Metalex Corporation has donated unused calendars and diaries to Social Welfare Council of Tokyo.

The calendars and diaries are sold at a charity event organized by the Council and all proceeds were donated to a year-end charity campaign.

Emergency Food Donations

Sumisho Metalex Corporation has donated in-house emergency rations to the supplier aiming the social contribution, SDG's and to prevent food loss.

The activity will lead to food aid provided by food banks.
